BRIGHID'S EYE – EYE OF THE GODDESS

...summons blessings, protection, creativity and love, is colourful like Her many aspects and a beautiful example of Celtic "feng-shui".

I made an incredible experience myself with my first >EYE<. When you fix it in the appropriate corner of your home or working place, above your bed or put the little "RAINBOW-EYE" in your car, it will unfold its blessing vibrations. It can be made in different colours, upon your wish.

A variation is the BRIGHID'S CROSS, woven with a red thread (symbolizing the red blood of life, which is the strongest protection) over sticks of sacred wood which is used as a strong protection amulet.

These magic objects are woven by me in deep connection with the Goddess and if you wish, special blessings can be added (or you do this yourself).

Material: Sticks from beech or from any other Goddess tree, natural wool, coloured ribbons, golden threads and symbols of the Goddess, like Swan feathers (from Hallstatt lake) shells, bells and elderberries

PRICE:	Brigid`s Eye:	€37,00	(ca. 20 x20 cm)
	Rainbow-Eye:	€6,00	(ca. 7 x7 cm)
	Brigid`s Cross:	€8,00	(ca. 10 x10 cm)

MUSIC PRODUCTIONS

Erdung – Sonnung (“Earthing – Sunning”)

The two guided meditations can help you to reconnect yourself with Mother Earth and the Sun, and fill your energy channels and chakras with the divine light.

Great for starting the day or to end it, or in between for regeneration.

If you like, you can round this off with a dance to one of the following elements.

- 1.) EARTHING: 6:09 min
- 2.) LIGHT EXERCISE: 7:37 min
- 3.) FIRE: From the simple burning on earth, the interaction of the flames, the rising of our inner fire in our energy channels, to the heavenly fires, the sun and the moon – 8:27 min
- 4.) WATER: A faun hears the singing of the nymphs on the brook and is creeping up and observing them, playing happily in the water, then answers with his flute. – 5:56 min
- 5.) AIR: The lightness and the stormy nature of this element expressed with voices and breath, the vibration of the air columns in the flutes – rising from the earth towards heaven – 7:06 min
- 6.) EARTH: With the help of the sounds of stones, drums, didgeridoos etc., we expressed: Stability, structure, safety and comfort, the slow swinging of the Earth-Body, the mobility and vitality of Her children, being well rooted, dancing life – 6:04
- 7.) DANCE OF THE HEARTS – VOICES OF THE HEART: The fifth element as the connecting one, the penetrating one. The mystical “yodel” of the “Goiserer Viergesang” is a beautiful example of possible harmony between tradition and modern spirituality, is weaving a plait of tones with the four elements and with this is creating the fifth one, ether, the love. – 5:47

All pieces were created with natural instruments only and recorded at a power place (“Filikumstein”) above Bad Goisern (A) and in an old mystical farmhouse.

PRICE: €16.-

DANCING THROUGH THE MIRROR

Music for trance dance, shamanic journeys and mobile meditations for each theme. Basic theme: The deep confrontation with our fears, which are hindering the fulfilment of our longing, the letting-go and the life in harmony with the cosmic rules.

What counts is the courage to look behind the mirror of illusion, to walk the adventurous path to the goal, the fulfilment of your heart's desire.

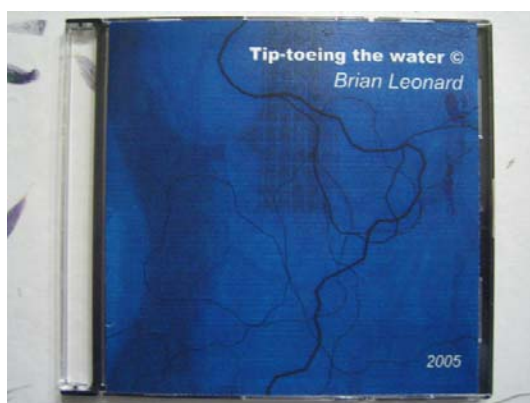

The pieces were recorded at the astrologically relevant times in St Wolfgang, the farmhouse and on many mystical places in nature (A).

- 2.) WILD HUNT OR THE WIND HORSES: The living with the forces of nature; a powerful and wild drum piece – 19:00 min
- 3.) DANCING THROUGH THE MIRROR: The death of the fearful ego, transformation – 13:00 min
